

Revista MVZ Córdoba

Instructions to the Authors

The Journal MVZ Córdoba is the official organ of diffusion of the Facultad de Medicina Veterinaria y Zootecnia of the Universidad de Córdoba, Colombia, is published triannually and circulates in the international environment. The magazine publishes (sections) original articles of investigation, technical articles, literature reviews, topic revisions, brief communications, inform of cases and, others that to opinion of the Editorial Committee are from general interest. The topics that the Journal MVZ Córdoba publishes are related with the veterinary medicine and zootechny, aquaculture, biology, biotechnology, biomedical basic sciences and other topics of interest in the agricultural sciences.

"The Journal MVZ Córdoba follows the policies of the World Health Organization (WHO) and of the International Committee of Medical Journal Editors (ICMJE) for clinical trial registration, recognizing the importance of those initiatives for international dissemination of information on clinical research, in open access. Accordingly, only articles of trials previously registered in one of the clinical Trial Registries that meet WHO and ICMJE requirements will be accepted for publication, starting in 2007. The list of registries accepted by WHO and ICMJE is available in ICMJE site. The trial registration number should be published at the end of the abstract".

Interested in publishing will send to the Editor an introductory letter signed by all the authors declaring expressly that the remitted article has not been published previously and that the authors don't have conflict of interests. Papers should be sent by via e-mail to Editor or Coeditor of the **Journal MVZ Córdoba**. Papers Should be written on any of the programs for word processing,

double space, with verdana letter, font size 12. Margin should not be inferior to 3 cm and pages will be numbered consecutively including the whole material. Journal accepts papers in either Spanish or English. Authors should consult general guides described below. The Journal MVZ Córdoba is welcomed to the general requirements of uniformity for biomedical journals (Norms of Vancouver).

1. Presentation: It should contain the following information:

1.1. Title of the article: It should be presented in Spanish and English language. The last one should appear below the first one double spaced and with a minor font size that the main one. The Title should be concisely but informative and be of up to 15 words.

1.2. Name: Last name of author(s). For the second name only be placed the first letter in capital followed by coma and each author's highest academic degree or professional title. It should include the institution affiliation of authors, (Institution Name, address, city, country). It should also indicate the responsible person for the manuscript correspondence (e-mail included).

1.3 Abstract: Should be structured and of approximately 250 words, indicating the paper's objective clearly and including: objective, material and methods, results and conclusions. This section should be in boldface and then point followed by the text of the subsequent section.

1.4 Key words: Are short terms. These will be useful to classify the article.

List 6 as maximum. Use the terms of the "Medical subject headings" (MeSH) list or another describer in agreement with the topic of their investigation. (DeCS, BIREME, NLM, etc.).

1.5 Abstract (summarize translated to English) it should possess a structure and content similar to the one of Spanish.

1.6 Key words: Key words, it should be similar to those of Spanish, but in English language.

2. **Introduction:** should indicate the paper's objective clearly, relating equally in selective form the pertinent literature. Do not include data neither conclusions of the work that is giving to know. When concluding this section it will be made with the general objective.

3. **Material and Methods:** should be described clearly the procedures used in the investigation including statistical design and data analysis. This section should be structured indicating type of study, place, geo-climatic conditions, coordinate of the study place, patients or animals, laboratory methods, ethical aspects, result analysis, etc. These sections should be in boldface then point followed by the text of the subsequent section.

4. **Results:** Correspond to findings without comments no references to other works. The use of tables and figures is suggested which should be no more of six.

5. **Discussion:** is the interpretation of the obtained results followed by a comparison with other studies. It should stand out the limitations of the study and equally to avoid speculations. Point out conclusions and suggestions for further research.

6. **Acknowledgements:** Contributions from people or institutions who have collaborated with the investigation (financial, logistics, intellectual, among others) should appear under "Acknowledgements".

7. **Correspondence:** Full names of the responsible author, affiliation address, postal address, cellular and telephone number, email addresses. This information should be include in the remission letter or in a single sheet at the end of the article.

8. **References:** Will be cited with a number correlative to the order in which they appear in the text and should be numbered consecutively by means of Arabic numbers placed within parenthesis. The list of references will begin in separate sheets, in strict appearance order in the text; they were not in alphabetical order. Original articles should have no more than 30 references. For literature revisions up to 50 references. Presentation of cases and short communications will have only 12 references. As general guide examples of bibliographical references are given below.

8.1. Journals

• Author's names • Full title of the referenced article • International abbreviation of the journal name • Year • Volume • Included pages. International abbreviation must be search in "*Journals database*" of PubMed, "Catalogue C17", "DREV", Biomedical journals of Valencia IHCD.

8.2. Books and monographs

• Author or editor • Title of book, publication place, editorial, year of publication and consulted pages.

8.3. Examples for the bibliographical references according to the Vancouver norms

Journal articles

• Articles

Author(s). Title of the article. International Abbreviation of the journal, year; volume (number): initial-final page of the article.

Examples: Díez Jarilla J, Cienfuegos Vázquez M, Suárez Salvador E. Ruidos adventicios respiratorios: factores de confusión. Rev MVZ Córdoba 1999; 109: 632-634.

• More than six authors

Martín Cantera C, Córdoba García R, Jane Julio C, Nebot Adell M, Galán Herrera S, Aliaga M et al. Virus and public health J Vet Sci 1997; 109: 744-748.

• Corporate author

Grupo de Trabajo del ICA. Normativa sobre el manejo de las hemoparasitos amenazantes. Rev MVZ Córdoba 1997; 33: 31-40.

• The author's name is not indicated

Cancer in South Africa (editorial). S Afr Vet J 1994; 84: 15-16.

The articles should be written in their original language if the graph is Latin.

• Supplement of a volume

Bonfill X. La medicina veterinaria basada en la evidencia. Arch Vet 1997; 33 Supl 1: 117.

• Supplement of a number

Leyha SS. The role of Interferon Alfa in the treatment of metastatic melanoma. Semin Oncol Vet 1997; 24 (1 Supl 4): 524-531.

• Number without volume

Pastor Durán. Informática médica y su implantación hospitalaria. Todo Hosp Vet 1997; (131): 7-14.

• Without number neither volume

Browell DA, Lennard TW. Inmunologic

status of the cancer fish patient and the effects of blood transfusion on antitumor responses. J Fish Culture 1993; 325-33.

• Paging in Roman numbers

Fisher GA, Sikic BL. Drug resistance in clinical oncology and hematology. Hematol Oncol Clin North Am 1995 Abr; 9(2): XI-XII.

• Indication of the article type as it corresponds

Enzensberger W, Fischer PA. Metronome in Parkinson's disease (letter). Lancet 1996; 347: 1337.

Clement J, De Bock R. Hematological complications of hantavirus nephropathy (HVN) (abstract). Kidney Int 1992; 42: 1285.

• Legal documents

Laws: LawTitle. (Name of the Official Bulletin, date, year of publication).

Ley aprobada. Ley 31/1995 de 8 de Noviembre, de Prevención de Riesgos Laborales. (Boletín Oficial del Estado, número 269, de 10-11-95).

• Map

Name of the map (map type). Publication Place: Editorial; year. Sada 21-IV (1 a 8) (mapa topográfico). Bogotá Instituto Geográfico Agustín Codazzi, Dirección General del Instituto Geográfico; 2003.

Unpublished Material

• In press

Vega A. Occurance of E.coli 0157:H7 on duch dayri farms Rev MVZ Córdoba in press 2007.

• Journal article in electronic format

Author. Title. Name of the journal in abbreviate form (support type) year (access date); volume (number): pages or extension indicator. Available in:

Transmission of Hepatitis C Virus

infection associated infusion therapy for hemophilia. MMWR (en línea) 1997 July 4 (fecha de acceso 11 de enero de 2001); 46 (26). URL disponible en: <http://www.cdc.gov/mmwr/preview/mmwrhtml/00048303.htm>

• **Monograph in electronic format**
Title. (Support type). Editors or producers. Edition. Version. Publication place: Editorial; year. Duane's Ophthalmology en CD-ROM User Guide. (monografía en CD-ROM). Tasman W, Jaeger E editor. versión 2.0. Hagenstown: Lippincott-Raven; 1997.

• **Informatics file**
Author.Title. (support Type). Version. Place: Editorial; year.

• **Thesis of Master, Doctorate and under Graduate works**
Author(s) title, faculty, department, year.
Arrieta G. Producción de Verotoxinas en Shigella. Tesis de Maestría, Facultad de Medicina Veterinaria y Zootecnia; Departamento de Medicina, Universidad de Córdoba, Montería, Colombia 2003.

9. **Photographs:** Pictures can be use, of excellent digital quality. The identification, sequence and titles should settle down clearly to locate the place that corresponds in the content of the article. The photographs will take the title of figure.

10. **Evaluation of articles:** Those manuscripts submitted to the Journal, after verifying that they fulfill the expressed norms of the Journal MVZ Cordoba will be subject to peer reviews of the Scientific Committee for its evaluation. In the

event of receiving some manuscript that by its special content cannot be evaluated by the members of the committee it will be remitted to appraisers belonging to the national or international scientific community.

In the writing of the content the international norms will be respected for scientific manuscripts that regulate the abbreviations, mentioned literature, symbols, atomic, zoological, botanical, chemical nomenclatures, among others. The values should be informed in units of the metric decimal system and in accordance with the International System of Units.

The Journal MVZ Cordoba and the Universidad de Córdoba don't take the responsibility for opinions and results expressed by the authors, which will be exclusive responsibility of them.

Conflict of interests. The authors should express the possible interests that possess in the work made by them.

Correspondence: Articles, consultations, explanations and general correspondence should be sent to the address below, however, the works can also be remitted in electronic form to the editor or the coeditor.[http: / / www.unicordoba.edu.co](http://www.unicordoba.edu.co)
